

**Week beginning date: 18/10/20**

**Plan: 6**

What tasks will you plan to do this week?
I plan to continue to edit my practice interview whilst creating a logo for my personal MET Connect page. I will also type up the research I found when listening to radio stations, whilst also uploading pictures of the process to create the main MET Connect logo and personal Sport logo. Creating a college spotify and adding a sport related playlist and adding to it.
What resources will you need? (include people to work with and materials/equipment etc)
Premiere Pro, Adobe Illustrator, Spotify Google Docs, Wix, My phone, Photoshop, <a href="http://www.nounproject.com">www.nounproject.com</a>
Roughly how much time do you expect each task to take?
I think my logo will take approximately 4 hours to make and my radio research another hour.

**Research Activity:**

What research will you carry out this week. This can include activities (e.g testing things out) as well as reading, questionnaires etc. Add links to any research this week.
Working on ideas for a logo, editing my practice interview on premiere pro will need adjusting over and over again, embedding with wix. **Evaluation:**

What did you achieve this week? What went well? What would you do differently? What will you need to think about for next week?
This week I finished editing my practice interview. It was harder than I thought it would be, next time I will ensure videos are in the correct order and that the interviewee stays sitting/standing in the same position so that it flows better. I also designed and created my logo, although finding images that worked was difficult until I found <a href="http://www.nounproject.com">www.nounproject.com</a> . From now on I shall look on this website first instead of searching the internet straight away. Uploading my background images was difficult because they weren't in the correct order. From now on I shall date them as well as saying what they are to make it easier when it comes to putting them on my wix page.
