

## **FMP Context & Proposal Sources**

Throughout the project I plan on using Youtube to discover other projects like I have planned, Getintotheatre to find out more about the crew's jobs. Theatre's trust will help me to understand the different areas of a theatre and the videos searched for will show me what backstage is really like.

I feel that the stage lighting set up will increase my knowledge of the lighting, and will make it easier for me to talk through the lighting part of the documentary and this will be backed up with the knowledge gained from the 'Understanding your AV rigging site'. The BBC will help me to understand the health and safety risks during the set up of a production.
