I will need my phone to record interviews with Women in Sport, for this I will use Anchor. Anchor has a microphone included within the app making it is easier to create podcasts. I will also be using Adobe Premiere Pro on a college Mac to edit the interview so that it becomes more appealing by reducing stammers. I can also easily extend the MET Connect Website content, which will be filmed, to include more questions about the athlete and their sport; this is in comparison to what will be released on the radio. A practice interview will take place to trial the Interview process, to prepare myself for when the real ones take place and will be put on my personal wix account as research.

I plan to have the interviews appearing on the radio on the 3rd Friday of each month, and then on the MET Connect website a week later. This will give me a month after the practice interview is released on my Personal Wix website during which time I can film and edit November's episode. However, a month will not be possible in December due to the College being on it's Christmas holidays and therefore the interview will be released 2 weeks early. February's release dates will also be altered because of half term falling on the week of the 15th. Therefore the interview will be released on the radio the Friday before half term (12th February), with the website posting two weeks later on Friday 26th February once the college returns.

Currently I have 7 interviews lined up with a radio schedule of:

November 20th 2020, Kayleigh Thaxter (Football)
 December 11th 2020, Skye Bacon (Football)
 January 22nd 2021, Susan Stead (Football)
 February 18th 2021, Gypsy Sutcliffe (Football)

March 19th 2021, tinygirlshooter (Football Photographer)
April 23rd 2021, Annie Rolf (and possibly Kelly Morine) (Football)
June 7 2021, Lizzie Williams (Wheelchair Racing)

The release dates for the full interviews on the MET Connect webpage and the Practice interview on my personal wix page and how long they will take to make are:

October 23rd 2020, Practice Interview- 5 days
November 27th 2020, Kayleigh Thaxter (Football)- 4 days
December 16th 2020, Skye Bacon (Football)- 4 days
January 29th 2021, Susan Stead (Football)- 4 days
February 26th 2021, Gypsy Sutcliffe (Football)- 4 days
March 26th 2021, tinygirlshooter (Football Photographer)- 4 days
April 30th 2021, Annie Rolf (and possibly Kelly Morine) (Football in America)- 4 days
Jun 11 2021, Lizzie Williams (Wheelchair Racing)- 4 days

However, the order may change according to the availability of athletes being interviewed.

As I am recording and editing the interviews for both the radio and website, another student will be taking pictures; the pictures will be placed on my personal wix site, as well as the 'Behind the Scenes' page of the MET Connect page.

Along with the videos of the athletes taking part in the interviews, I would also like to add videos of them doing skills that are connected to their sports and some blooper videos. I believe that this will make it more entertaining than just interview after interview. I plan to release these videos between the interviews. This means that the timetable for their release and how long they will take to make would be:

December 3th 2020, Kayleigh Thaxter Skills- 5 days
December 9th 2020, Kayleigh Thaxter Bloopers- 4 days
January 11th 2021, Skye Bacon Skills- 4 days
January 21st 2021, Skye Bacon Bloopers- 4 days
February 9th 2021, Susan Stead Skills- 4 days
February 12th 2021, Susan Stead Bloopers- 4 days
March 11th 2021, Gypsy Sutcliffe Skills- 4 days
March 18th 2021, Gypsy Sutcliffe Bloopers- 4 days
April 8th 2021, tinygirlshooter Skills- 4 days
April 20th 2021, tinygirlshooter Bloopers- 4 days
May 21st 2021, Annie Rolf (and possibly Kelly Morine) Skills- 4 days
May 28th 2021, Annie Rolf (and possibly Kelly Morine) Bloopers- 4 days
June 18rd 2021, Lizzie Williams Skills- 4 days
June 22rd 2021, Lizzie Williams Bloopers- 4 days

For this to happen I will need props that are included within the athletes sports (eg. a football) as well as Adobe Premiere Pro in order to edit the interview videos to become what I want them to be.
