Dear Mr Moore,

My name is Scott Crowter, I am 26 years old and in my 2nd year of Festival and Event Management with Greater Brighton Metropolitan College.

For my current project I am looking at 'Women In Sport' for our class website. My page includes a mix of information about important women within professional sport along with a podcast on the views of women involved in sport on big questions about either the sport they play or sport in general.

I am looking for women to get involved in my podcast and was pointed in your direction. Anyone that wants to get involved doesn't even have to leave their home, but does need to have access to Zencastr.com (this site doesn't work for everyone).

If any of your members would like to get involved it would be amazing!

Please get in touch using the email address above.

Yours Thankfully,

Scott Crowter
